

## **For Virtual Students**

Your schedule may include a virtual learning class period. This is simply a placeholder to fill 7 periods. In addition, we have more flexibility with virtual schedules and in order to make some schedules work, you may see more than one class in a period and some periods may not have a class. This is not an error and is acceptable for a virtual student's schedule.

At Rossvie High School, schedule corrections are made for the following reasons only:

- Failed a course, need it to graduate
- Scheduled for a class I have already passed
- There is a blank period in my schedule

Students meeting one of the criteria above should click the link below using their cmcss email. We do not honor period, teacher or class request changes. Phone calls and emails regarding schedules will not be returned at this time so that we can ensure that all scheduling errors are addressed in a timely manner. Please know we are working as quickly as possible and understand the uncertainty and frustration with the current situation. We ask for your patience and understanding during this time.
