

## **2021 National Latin Exam Results**

### **Rossview High School**

Each year, students from around the globe take the National Latin Exam. This year, approximately 88,000 students from 21 countries took the exam. After scanning everyone's exams, the NLE committee determines the average on the test that year. Students who match or slightly beat the average earn a Cum Laude certificate; those who beat it by a little more get a Magna Cum Laude certificate; those who beat it substantially earn a Silver Medal; those who blow it out of the water earn a Gold Medal!
