

## **RHS Sports Medicine Information**

Rossvie High School, as part of CMCSS is partnering with Final Forms for the online service of tracking sports medicine information. Parents will need to establish an account with Final Forms to submit all of the student athlete's pertinent medical information prior to the student participating in any athletic practices or contests. The medical trainer will verify that all necessary documents are uploaded and signed prior to clearing the athlete for competition. The link to Final Forms is provided below.
